Welcome From the Executive Director

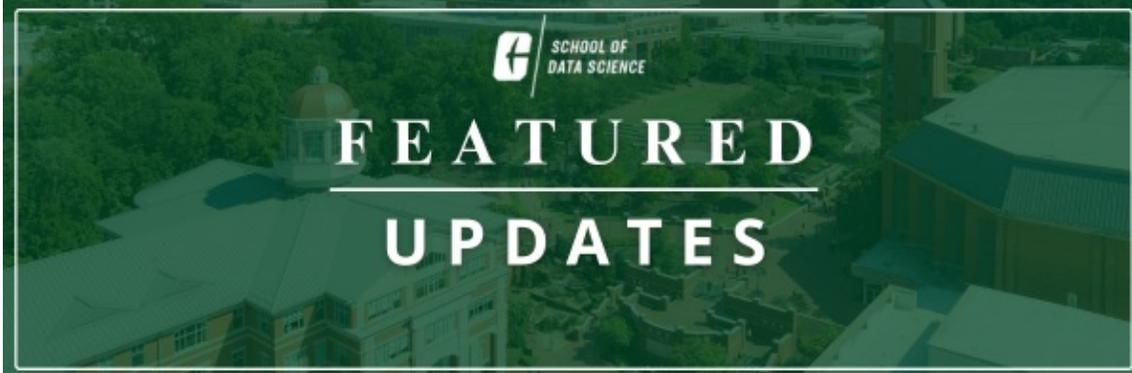

Dear faculty of the School of Data Science,

Warm regards,
Dongsong Zhang, Ph.D.
Interim Executive Director, School of Data Science

Share your SDS story!

Have an event or story idea for the SDS community?
Please send your submissions to [Lindsay Lennon](#), SDS
Communications and Events Manager.

Professor Michael Schuckers ft. in Niner Times

On Nov. 15th, our third research talk was conducted by Dr. Michael Schuckers, the first full-time professor at the UNC Charlotte School of Data Science. He shared valuable insights from his research in equity, sports analytics, and education, inspiring students to explore the vast career possibilities in data science.

We're thrilled to have him on board as we continue to grow the UNC Charlotte School of Data Science and connect students with opportunities in Charlotte's vibrant tech community.

SDS Assistantship Spring 2025 Applications Now Open

Applications for Spring 2025 SDS Assistantships are now available for both undergraduate and graduate students! If you have SDS students (DSBA, HIA, Data Science BS) interested in serving as Teaching, Research, or Instructional Assistants, please encourage them to apply [HERE](#) or through their program website. Eligibility is limited to students enrolled in SDS programs with a minimum GPA of 3.0. The assistantships are open to in-state, out-of-state, and international students, including newly admitted students in DSBA, Health Informatics, or Data Science. Appointments can be full-time (20 hours/week) or part-time (10 hours/week), with awards granted for one semester and potential extensions. Please note that SDS assistantships do not include tuition remission.

SDS Resume Book Now Open for Spring 2025

The SDS Resume Book is now open for students seeking internships or full-time positions for Spring 2025. This opportunity is available to undergraduate and graduate students in the HIA or DSBA master's programs, or the Bachelor's in Data Science. Eligible students should plan to graduate in December 2024 or seek a Spring 2025 internship. Please check your program's website for specific internship requirements.

To participate, complete the form and upload your resume as a PDF with your name in the title (e.g., JOHN_SMITH_RESUME.pdf). Utilize UNC Charlotte's Career Center for additional support.

Upload Your Resume Here!

SDS Statistics Bootcamp Update

The statistics bootcamp on Canvas has been having issues processing grades. We are currently working on fixing the problem. If you are requiring students to complete the bootcamp for your class and need to know who has completed it, please reach out to the GA, Katherine Davis at kdavi247@charlotte.edu. In three weeks, we will be resetting the course to fix the issue.

2025 Summer Research Program

The Office of Undergraduate Research is accepting submissions for faculty project descriptions for the **2025 OUR Summer Research Program**.

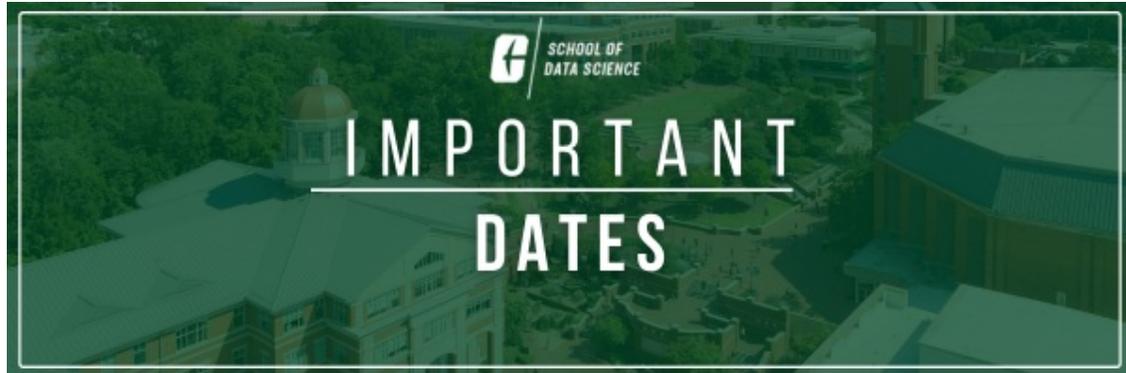

Current Resources and Opportunities to Advance Research Projects from the Center for Research Excellence

The Center for Research Excellence has several opportunities to advance research projects Ignite Planning Grants and Faculty Research Grants. The Center is also offering a New Assistant Professor Workshop Series which seeks to help professors

to the FRG process. Additionally, external funding opportunities are available. [More information](#)

New SDS Faculty Research Published

SDS faculty Shan Yan recently published a lab research article titled "Distinct regulation of ATM signaling by DNA single-strand breaks and APE1" published at *Nature Communications*. The paper can be found [here](#). A news article on this paper was released at EurekAlert titled "Demystifying APE1: New findings on direct activation of ATM signaling by DNA single-strand breaks" which can be found [here](#).

Find the full [SDS Calendar of Events](#) on the program website.

- December 4: Last day of classes
- December 5: Reading Day
- December 5: **SDS Industry Advisory Board Meeting**

Registration Open! Academic Summit for Business Analytics @ The University of Texas at Dallas Jan 30 - Feb 1, 2025

- **Event Details:** 2nd Academic Summit for Business Analytics (ASBA) hosted by the Naveen Jindal School of Management, The University of Texas at Dallas, from

January 30 – February 1, 2025.

- **Purpose:** Facilitate idea exchange among faculty and leaders in Business Analytics, focusing on effective teaching and enhancing student experiences.
- **Key Topics:** Student Recruitment and Retention, Curriculum Development, Student Success, and Industry Partnerships.
- **Activities:** Engage with scholars and industry experts through guest lectures, panel discussions, and informal conversations on emerging practices, including AI.

Assessing Risks and Impacts of AI Workshops

On November 12, 2024, NIST will host the first in a series of public workshops for its Assessing Risks and Impacts of AI (**ARIA**) program. ARIA aims to bridge current risk measurement gaps and account for AI's opportunities and threats in the real world. The first workshop will provide an overview of ARIA and how to participate, followed by a group exercise and open discussion about the objectives for annotation in the program's experimentation environment. The workshop will take place at the American Geophysical Union in Washington, D.C Registration for in-person attendance closes on November 6, 2024.

Developing and Validating High Impact Models Wednesday 11/6 at 5:30 pm-7:30 PM, Room 204 (Small Lecture Hall) in the Dubois Center

Agus Sudjianto, Executive of Residence at the School of Data Science, will be giving a guest lecture on model interpretability/assessment to Applied Machine Learning. Open to all students interested in data science and machine learning! Don't miss this exciting opportunity to learn from industry experts about developing and validating predictive models for real-world applications. This presentation will cover essential practices in model risk management, ensuring your models are not only technically sound but also resilient and effective under real-world conditions. Perfect for anyone looking to enhance their skills and prepare for a career in data-driven fields, this talk is a must-attend! Join us to gain valuable insights and take your modeling

Student Resources AND OPPORTUNITIES

NC State University Summer Conference on Applied Data Science June 2 – July 25, 2025

The application for SCADS 2025 is now open to students. **Student applicants should be currently enrolled in a master's or Ph.D. program.** There are no requirements around coursework or specific degree programs. We welcome student applicants from all disciplines interested in the SCADS grand challenge. **Students are expected to work 40 hours/week and will receive a competitive stipend of \$11,500.** Students who do not already live in the local area (within 35 miles of campus) will also receive a stipend to support local accommodations and travel. **The deadline to apply is Sunday, January 12, 2025, at 11:59 p.m. ET.**

SDS Monday Professional Seminars- Coming Up

Join us every Monday from 4:00 to 5:00 PM at the Dubois Center for exclusive insights from national and local employers across financial services, manufacturing, retail, and healthcare. Connect with industry leaders, explore career opportunities, and tackle data challenges. Enhance your career—don't miss out! Check out the full fall schedule [HERE](#) and register to secure your spot.

- **A Day in the Life of a Data Scientist at IDiyas, November 4, 2024, 4:00 PM to 5:00 PM, Dubois Center:** IDiyas, a global legal-tech platform, uses data science to enhance operations and serve its community. Data scientists at IDiyas contribute to trend analysis, product development, and name entity resolution. They also support key business functions like newsletter publishing, research reports, and web advertising. By fostering a strong internal data science community, IDiyas empowers informed decision-making and company success.

The Informatics Research Seminar Series | Virtual Sessions | Wednesday @4:00 pm

The Informatics Research Seminar Series, sponsored by Duke University and collaborating institutions (UNC-Chapel Hill, NCCU, UNC-Charlotte, ECU, and WFU), offers valuable insights into Health Informatics. Seminars cover industry perspectives, research results, and diverse projects in the field. Join us on Wednesdays at 4 PM EST to engage with industry leaders and researchers.

Upcoming Seminars:

- **East Carolina University (11/6):** David Marc, PhD, CHDA, Co-Founder & Chief Technology Officer of Superior Insights, will discuss "Predicting Health Informatics Workforce Trends in a Rapidly Evolving Landscape."
- **Wake Forest University (11/13):** Mohammad Seyyed Moghimi, PhD, Assistant Professor at Rowan University, will present on a topic to be determined.
- **Duke University (11/20):** Chuck Jaffe, MD, PhD, Chief Executive Officer of HL7, will speak on a topic to be determined.
